SCIEx Announcement Page

Once logged onto the system, the announcement page is shown to notify users of any changes to the system.

SCIEx Audit Feature Purpose

SCIEx access and use of the system is restricted to law enforcement officials or those persons supporting law enforcement.

SCIEx Audit requirements include the collection of information relative to the use of Criminal Activity systems and information.

SCIEx must collect four items of information for searches done within the system:

1. The name or badge number of the officer **requesting the information.**
2. **Distribution of the information** or who gets the information.
3. The **reason the search** is performed, perhaps a case number.
4. The User ID of the person performing the search (the user that is logged on the system).

SCIEx Audit Feature Purpose

The system now has 3 new fields on the search panels to meet the CJIS requirement. These free-form text fields collect the following:

- 1) Query for Agent
- 2) Dissemination to
- 3) Query Reason

The user id (4) is automatically collected as the user logs into the system.

Each agency can establish a standard for field content if they wish, i.e. always use badge number, etc.

SCIEx Use Disclaimer

The screenshot shows the SCIEx login interface. At the top, there is a blue header with the 'SCIEx' logo on the left and the 'SCIEx' text with a circular seal on the right. Below the header, the page is divided into two main sections. On the left is the login form, and on the right is a text area containing the system's disclaimer and rules of use.

SCIEx

The use of the Repository is controlled by the SLED and the using Agency Administrator. Penalties for misuse of the information contained herein include denied future access and possible disciplinary action and or prosecution.

By logging onto this system you are agreeing to comply with the following Rules:

- Queries performed against this system are to be based on an association with legitimate investigative needs.
- Queries performed against this system are done so on behalf of Law Enforcement personnel.
- Use of information must be approved by expressed permission of the contributing agency.
- Usernames and Passwords must be maintained as private information and may not be shared with others.
- Use of the system in a manner outside the scope of these rules is strictly prohibited.
- Use of the system is periodically audited for compliance with these rules.

Release [leadr-5.8.2](#) © Copyright 2012 NLETC. All Rights Reserved. [SCIEx Security Policy](#)

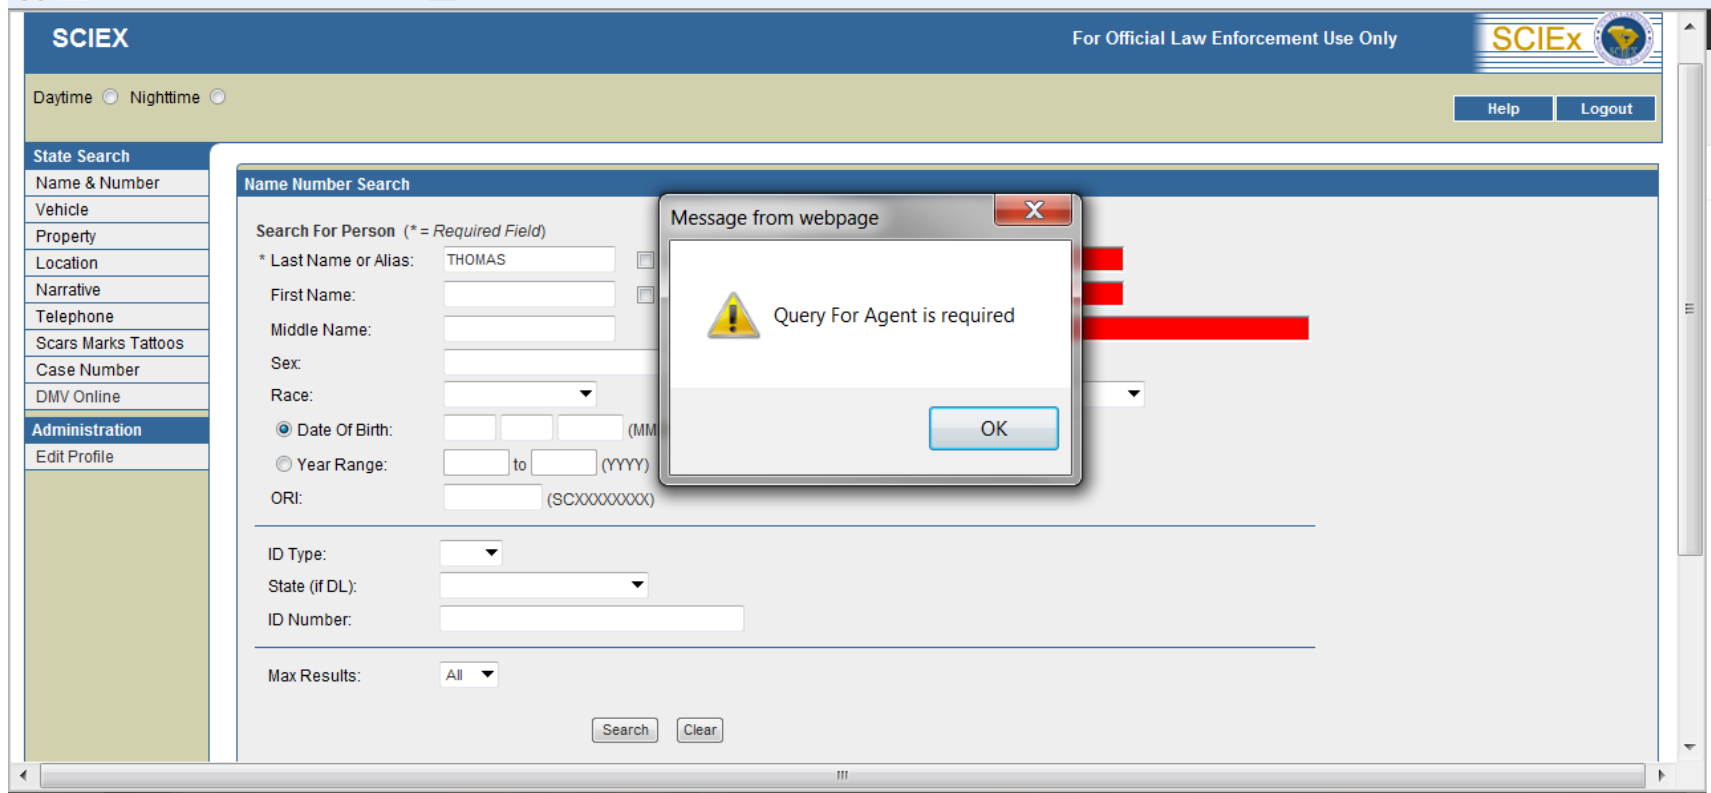

Rules of Use are displayed on the Home Page of the system and logging into to the system constitutes agreement with those rules.

New Audit information collection fields

The screenshot displays the SCIEX Name Number Search interface. The top header includes the SCIEX logo, the text "For Official Law Enforcement Use Only", and a "SCIEx" logo with a globe icon. Below the header, there are radio buttons for "Daytime" and "Nighttime", and "Help" and "Logout" buttons. A left sidebar contains a "State Search" menu with options: Name & Number, Vehicle, Property, Location, Narrative, Telephone, Scars Marks Tattoos, Case Number, DMV Online, Administration, and Edit Profile. The main content area is titled "Name Number Search" and contains a "Search For Person (* = Required Field)" section. This section includes several input fields and checkboxes: "Last Name or Alias" (required), "First Name", "Middle Name", "Sex" (dropdown), "Race" (dropdown), "Date Of Birth" (radio button, format MMDDYYYY), "Year Range" (radio button, format YYYY to YYYY), "ORI" (format SCXXXXXXX), "Soundex" (checkbox), "Permutate" (checkbox), "Query For Agent" (required, highlighted in red), "Dissemination To" (required, highlighted in red), "Query Reason" (required, highlighted in red), "Recent searches" (dropdown), and "Named searches" (dropdown). Below these fields are "ID Type" (dropdown), "State (if DL)" (dropdown), "ID Number" (text input), and "Max Results" (dropdown set to "All"). At the bottom are "Search" and "Clear" buttons.

The new audit information collection fields are shown on each of the State Search Panels.

This illustration shows above the fields highlighted in red indicating information is required before the search can be performed.

The audit information fields are mandatory and must be supplied before a search can be performed.

If a search is attempted without the required information in the audit fields, the system produces an error message indicating the field to be supplied by the user. See illustration above.

Officer Rogers is performing a Vehicle TAG search and will retain the information results in association with CASE # 0909-AB

The Vehicle search results are presented by the system. If Officer Rogers chose to search deeper by clicking the underlined TAG number, a new audit record would be created using the information supplied on the initial Vehicle Search panel, bypassing the need to reenter the information.

Case Number Search Scenario

The screenshot shows the SCIEX web application interface. At the top, there is a blue header with the SCIEX logo on the left, the text "For Official Law Enforcement Use Only" in the center, and the SCIEX logo with a seal on the right. Below the header, there is a navigation bar with "Daytime" and "Nighttime" radio buttons, and "Help" and "Logout" buttons. On the left side, there is a vertical menu with options: "State Search", "Name & Number", "Vehicle", "Property", "Location", "Narrative", "Telephone", "Scars Marks Tattoos", "Case Number", "DMV Online", "Administration", and "Edit Profile". The "Case Number" option is selected. The main content area is titled "Case Number Search" and contains a form with the following fields: "Search For Case Number (* = Required Field)", "* Case Number:" with the value "2012-56536", "ORI:" with an empty field, "* Query For Agent:" with the value "SHERRY ROGERS", "* Dissemination To:" with the value "SHERRY ROGERS", and "* Query Reason:" with the value "CASE 2012-56536". There are "Search" and "Clear" buttons at the bottom of the form. On the right side of the form, there are two dropdown menus: "Recent searches:" and "Named searches:".

The user is performing a search for a specific case number to identify information associated with the case on behalf of Officer Rogers. Rogers will retain the information for the case review.

Officer Rogers wants to know:

- about activities connected to the case, (Case Number Search)
- where the incident took place, (Incident Report Search)
- any other activities that have taken place at that location, (Location Search)
- any other activity associated with the subject in the case. (Name Search)

Case	Event Date	Event Type	Event Sub Type	Narrative	Agency
2012-56536	2012-12-01	<u>ARREST</u>		On the above date and time, I was dispatched to 302 Wescott Drive in reference to a 911 hang up. Once on scene, I made contact with a female subject, later identified as Cynthia Blankenshi Jarrell, and a male subject, later identified as Edwin William Jarrell Jr. Officer Johnson then arrived on scene to assist in the investigation. I then spoke with Mrs. Jarrell which advised me of the incident, and Officer Johnson spoke with Mr. Jarrell. Mrs. Jarrell stated that she and Mr. Jarrell was sitting outside on the back porch and were engaged into a verbal altercation for several hours. Mrs. Jarrell stated that both of them had consumed some alcoholic beverages. Mrs. Jarrell stated that Mr. Jarrell turned off the porch light when he was ready to go to bed. Mrs. Jarrell stated that she asked him to turn the light back on but he refused. Mrs. Jarrell stated that she turned the light back on and that he turned it back off. Mrs. Jarrell stated that Mr. Jarrell said, Bitch if you turn it back on I will destroy it. Mrs. Jarrell stated that she told him that she would turn the light back on if she wanted to and stated that Mr. Jarrell began hitting her in the face about four to five times with a open hand. Mrs. Jarrell stated that Mr. Jarrell grabbed her by the shoulders and began to shake her and attempted to throw her to the floor. Mrs. Jarrell stated that Mr. Jarrell pulled a cigarette from her mouth. Mrs. Jarrell stated that she attempted to call 911 and that Mr. Jarrell took the phone and threw it into the floor. While speaking with Mrs. Jarrell, I noticed that she had a cut on her right index finger along with blood, and that her nose was also bleeding. Mrs. Jarrell stated that that shoulders was very sore and one of her fingers was sore also but she denied medical attention. I then made contact with Mr. Jarrell about the incident. Mr. Jarrell stated that nothing happened other than an argument. Mr. Jarrell was then place under arrest, handcuffs were check for proper spacing and double locked, for Criminal Domestic Violence and advised of	Clemson PD
2012-56536	2012-12-01	<u>INCIDENT</u>			Clemson PD

The system returns two activity records associated with case number 2012-56536, an Incident Report and an Arrest report.

To view the Activity details associated with the case, the user selects the underlined Incident Activity. Re-entering the audit information is not required.

Case Number Scenario

The screenshot displays a web-based incident management system. The top section, titled 'Incident', contains fields for Agency (Clemson PD), Case Number (2012-56536), Date (2012-12-01), and Description (CRIMINAL DOMESTIC VIOLENCE). Below this is a table for 'Offense' with columns for Statute, Segment, and UCR Code. The 'Location' field shows '302 WESCOTT DR CLEMSON 29631'. A blue callout box labeled '1) The system returns the Incident Report' points to the 'Incident' section. Another blue callout box labeled '2) The user selects an Incident Address Search.' points to the 'Incident Address Search' link. Below the location, there are sections for 'Subjects', 'Victims', 'Complainants', and 'Witnesses'. A 'Narrative' section at the bottom provides a detailed account of the incident. A blue callout box labeled '3) List of Activities' points to a table below the narrative, which lists activities with columns for Case, Event Date, Event Type, Activity Type, Event Description, Alert, and Agency.

Case	Event Date	Event Type	Activity Type	Event Description	Alert	Agency

Name Number Search Results

Search Parameters: JARRELL, EDWIN WILLIAM

Displaying Records: 1 - 1 of 1

Name: Last, First	AKA	DOB	SSN	Alert	Cases	Agency	Sex	Race	HT	WT	Eye
JARRELL, EDWIN WILLIAM		1957-09-27	245947085		(1)	Clemson PD	M	W	5-9	170	BLU

- 1) Next, the user wants to know if other activities are associated with the Subject and clicks the appropriate underlined "Name Search". The initial audit information will be re-used as this is still part of the initial case number search request.
- 2) In this instance, only one case is associated with the subject.

Case Number Search Scenario

In the Case Number search scenario, the Audit information fields were supplied at the initial point of the search chain, Case Number Search and then reused for each additional search or information request performed by the user:

1. Initial Case Number Search (Supplied Audit Information)
2. Incident Detail Search (Information Re-Used)
3. Incident Address Search (Information Re-Used)
4. Incident Subject Name Search (Information Re-Used)
 - An audit record was written for each search performed.

Reviewing Audit Reports

Agency Administrators as well as the System Administrator have access to the Audit Data Search function.

The Audit Search function provides:

- Annual Review of all audit data performed by all users within the agency.
- Audit data for specific search activity, such as who searched for a specific tag number or who searched for a specific person name.
- All searches performed by a specific user.

Audit Log

The screenshot shows the SCIEX web application interface. At the top, there is a blue header with the SCIEX logo on the left, the text "For Official Law Enforcement Use Only" in the center, and a "SCIEX" logo with a seal on the right. Below the header, there are radio buttons for "Daytime" and "Nighttime", and "Help" and "Logout" buttons. On the left side, there is a "State Search" menu with links for "Name & Number", "Vehicle", "Property", "Location", "Narrative", "Telephone", "Scars Marks Tattoos", "Case Number", and "DMV Online". Below this is an "Administration" menu with links for "Add User", "List Users", "Audit Search", "Element Filter", and "Emergency Delete". The "Audit Search" link is highlighted with a blue box, and a blue callout box with white text points to it, stating: "To access the Audit Search feature, click here." The main content area is titled "Audit Search" and contains two sections: "Annual Audit Search" and "Quick Search". The "Annual Audit Search" section has fields for "* ORI:" (SC0390200), "* From Year:" (YYYY), and "* To Year:" (YYYY), with "Search" and "Clear" buttons. The "Quick Search" section has fields for "* ORI:" (SC0390200), "* From Date:" (MM/DD/YY), "* To Date:" (MM/DD/YY), "* Filter:" (a dropdown menu), and "* Search Criteria:" (a text input), with "Search" and "Clear" buttons.

Accessing the Audit Review feature from the Administration section.

Note: Only Agency Administrators has access to this feature.

The Audit Search panel offers two search options:

- Annual Audit Search allows the administrator to view a spreadsheet of monthly use by all users within the agency.
- Quick Search allows the Administrator to search audit records for activity against a specific tag, name searches or all searches performed by a specific user.

The screenshot displays the SCIEX web application interface. The top header includes the SCIEX logo, the text "For Official Law Enforcement Use Only", and a "SCIEX" logo with a star. Below the header, there are radio buttons for "Daytime" and "Nighttime", and "Help" and "Logout" buttons.

The left sidebar contains a "State Search" menu with options: Name & Number, Vehicle, Property, Location, Narrative, Telephone, Scars Marks Tattoos, Case Number, and DMV Online. Below this is an "Administration" menu with options: Add User, List Users, Audit Search, Element Filter, and Emergency Delete.

The main content area shows the "Annual Audit Search" screen. It includes a "Back <<" button and a section for "Annual Audit Search (* = Required Field)". The search parameters are: ORI: SC0390200, From Year: 2012, and To Year: 2012.

The "Annual Audit Report" screen is shown below, displaying the search results. It includes a "Back <<" button and a section for "Annual Audit Report". The search parameters are: ORI: SC0390200, From Year: 2012, and To Year: 2012. The results show one record for Clemson PD with a total of 234 searches in 2012, performed by user LuffyD.

#	ORI	Organization Name	Year ▲	Total	Top Searcher	Top Searcher Total
1	SC0390200	Clemson PD	2012	<u>234</u>	LuffyD	<u>234</u>

The Administrator for ORI SC0390200 wishes to see all activity for all users within that agency for the year 2012 the system provides the annual report.

The report shows Clemson PD as the user with the highest number of searches, with 234 search activities in 2012

From this report, the Administrator can request a summary for a user by clicking on the underlined activity total.

Nighttime or Daytime Features

The screenshot shows the SCIEX web application interface. At the top, there is a header with the SCIEX logo and the text "For Official Law Enforcement Use Only". Below the header, there are two radio buttons: "Daytime" and "Nighttime". The "Nighttime" button is selected and highlighted by a blue arrow. To the left of the main content area is a sidebar menu with various options: "State Search", "Name & Number", "Vehicle", "Property", "Location", "Narrative", "Telephone", "Scars Marks Tattoos", "Case Number", "DMV Online", "Administration", and "Edit Profile". The main content area is titled "Name Number Search" and contains a "Search For Person (* = Required Field)" section. This section includes fields for "Last Name or Alias", "First Name", "Middle Name", "Sex", "Race", "Date Of Birth" (with a calendar icon), "Year Range", "ORI", "ID Type", "State (if DL)", and "ID Number". There are also checkboxes for "Soundex" and "Permutate", and input fields for "Query For Agent", "Dissemination To", and "Query Reason". A "Recent searches" dropdown and a "Named searches" dropdown are also present. At the bottom of the search section are "Search" and "Clear" buttons. The "Max Results" dropdown is set to "All".

Users may use the daytime or nighttime feature by clicking the daytime and nighttime button.

This screenshot shows the same SCIEX web application interface, but with the "Daytime" radio button selected and highlighted by a blue arrow. The rest of the interface, including the sidebar menu and the "Name Number Search" form, is identical to the previous screenshot.
